

## PROMOSPORT IN THE TOP-5 OF THE PORTUGAL LEAGUE

21 OCT 2023

Promosport is the fourth intermediation company with the most players in the first Portuguese League.

The data comes from the Dutch page Facts Consultancy, which listed the intermediation companies with the most athletes represented in the main category. In fact, the count is even faulty, as Promosport counts 11 athletes in the League.

Also worth mentioning are the League's coaches such as Filipe Martins (Casa Pia), Sérgio Vieira (Estrela da Amadora) or Rui Borges (Moreirense), which increases the total share of their representation among the top echelon of Portuguese football.
